SF1EL - Series Earth Leakages

The SF1EL is a 26 mm wide, surface mounted earth leakage circuit breaker with a switched neutral and an additional 50 cm neutral cable attached. It is applied in commercial and industrial applications.

**Features**
- Hydraulic-magnetic technology
- 100% rating capability, independent of ambient temperature
- AS/NZS 3111 and AS/NZS 3190 compliant
- Compact width 26 mm
- Operating voltage 240 V AC single pole
- Immune to pulsating DC load current
- Ratings 6 to 40 A
- Earth leakage sensitivity 10 mA or 30 mA
- Single pole plus switched neutral earth leakage protection
- Additional neutral wire
- Precision tripping characteristics
- Trip indication with mid-trip position
- Reset immediately after overload
- Suitable to use for electrical isolation
- Shell design permits easier installation onto busbar

**Applications**
- Mining, heavy industrial and commercial applications requiring high sensitivity earth leakage protection from electrical shock and fire hazards
- Telecom / datacom equipment
- Lighting control
- UPS equipment
- Alternative energy equipment
- Mobile power generation equipment
- Railway signalling and infrastructure

**Approvals**
- AS/NZS 3111
- AS/NZS 3190

### Group 1: Frame Type
- Code: S
  - Description: 26 mm wide earth leakage
  - Comments

### Group 2: Product Type
- Code: F
  - Description: 240 V AC, 6 kA
  - Comments

### Group 3: No of Poles
- Code: 1
  - Description: Single pole plus switched neutral (1+N)
  - Comments: SF1EL

### Group 4: E-L Type
- Code: EL
  - Description: Overload (auto tripping)
  - Comments: White and green handle C / Orange

### Group 5: Auxiliary / Additional Pole
- Code: -
  - Description: Not applicable
  - Comments: Use this code if no auxiliary used
- Code: A
  - Description: Auxiliary switch
  - Comments

### Group 6: Time Delays
- Code: 1
  - Description: Long time delay
  - Comments
- Code: 2
  - Description: Medium time delay
  - Comments
- Code: 3
  - Description: Short time delay
  - Comments

### Group 7: Current Ratings
- Code: 6, 10, 16, 20, 25, 32, 40 A
  - Comments: SF1EL
  - Ratings available vary depending on certification
  - * Other ratings are available as special orders. Check availability.

### Group 8: Sensitivity
- Code: 10mA
  - Description: 10 mA
  - Comments
- Code: 30mA
  - Description: 30 mA
  - Comments

### Group 9: Voltage
- Code: 240V
  - Description: 240 V AC
  - Comments

### Group 10: Special Termination
- Code: -
  - Description: No special termination
  - Comments

For options not listed, please contact CBI.
Time Delay Curves

**OPERATING CHARACTERISTICS**

**CURVE 1**

- Minimum
- Maximum

**CURVE 2**

- Minimum
- Maximum
The published time delay curves are generated at 30°C ambient temperature with the Circuit Breaker mounted in the up-right position. The “must hold”, “must trip” and “instantaneous trip” current values are not affected by temperature, although delay time for the other operating current values may have to be adjusted using the temperature compensation curve which is available on request.
